

Renewal of the administrative elite, 1970-2025

The share of people receiving an appointment in a given year who had never appeared in the gazette before. High values mark years in which the state recruited from outside its own ranks; low values, years in which it promoted and rotated the people it already had.

Source: Journal Officiel de la République Tunisienne, 1957-2026 (6,378 French issues, jort.tn). Author's extraction. A person counts as a newcomer in the year of their first recorded appointment. The series starts in 1970 because the gazette's own beginning in 1957 makes everyone a newcomer at first. 2026 is omitted as incomplete.
