

Pedagogical descent

The largest chain of teacher-pupil ties the book states, drawn from teacher to pupil: 19 of the 46 people in this layer. The rest form 9 smaller groups, mostly one subject and the shaykhs he read with. In this stratum a man's shaykhs place him more reliably than his appointments do, and this is the only layer in the repository that records them. Hollow circles are people named only as somebody's teacher or pupil.
